

DYKEM® High Purity Fine Marker

- Ideal for welding, aircraft industries, marine industries, power plants, automotive plants, and oil and natural gas refineries
- Paint will not contaminate or adversely affect surface being marked

DYKEM® High Purity Fine Markers are your answer for marking on stainless steel or any surface where degradation, contamination or other adverse effects are a concern. The formulas contain trace amounts of halogens, low melting metals and are low in chlorides. The precise formulations meet or exceed the specifications for GE Nuclear Energy, GE Aircraft Engines and the US Energy Research and Development Administration (nuclear grade).

DYKEM® High Purity Fine Line is a lightweight valve action marker that writes fine, distinctive markings. It features a clip cap so it's easy to secure in your pocket.
